### BEAR TRACKS NUMEROUS.

President Roosevelt and His Party  
Hopeful of Success.

Stamoul, La., Oct. 15.—No person has reached this point from the president's new camp on Bear lake except a party that started from there early Monday morning. The party arriving consisted of Secretary Latta and Messrs. Parker, Shields and W. W. Mangum, the last named a friend from Mississippi with whom the president became acquainted at Smeads and who was invited to the camp. They brought only the report that the president and his remaining companions had made an early start and that they were in high spirits and very hopeful of better fortune than has yet attended the hunt. Several members of the party have seen bears at the lake and bear tracks are reported to be numerous. Two timber wolves passed Sunday within plain sight of the camp and so excellent is the outlook that the president has decided definitely to remain in the present location and not to go to Texas, as was planned last week. The president spent Sunday in and around the camp, the only exercise by him being a walk along Bear lake and a row over the water in company with Mr. Mangum. No member of the party made any attempt at hunting. Lilly, the president's favorite hunter, is so religiously inclined that he would not break the Sabbath to go in search of a hunter's knife he had lost on Saturday but waited until Monday morning when he went out before daybreak and soon returned with the weapon. The weather remains quite perfect for hunting.

The president will come into Stamoul next Sunday before starting Monday on his return to Washington.

## A CHILD'S LIFE

A child's life, mentally and physically, depends upon proper nutrition, cleanliness of food eaten being a great factor. The hands disseminate disease, germs cling to them. A food prepared without the contact of hands must be clean.

## DR. PRICE'S WHEAT FLAKE CELERY FOOD

is prepared under strict scientific processes, and no contact with hands from the husker to the consumer, and hence germs are an impossibility. A food for the old, the young, the feeble and the sedentary.

## FISH GETS INJUNCTION

Trying to Prevent Voting of  
Harriman's Stock.

### CHARGES UNLAWFUL SCHEME

Petition Alleges That the Union Pacific Railroad Company Is Endeavoring to Control the Commerce of the United States.

Chicago, Oct. 15.—Stuyvesant Fish, through his attorneys, H. W. Leman and Frank H. Culver of Chicago and Edgar H. Farrar of New Orleans, Monday secured a temporary injunction which will if made permanent restrain the voting at the Illinois Central Railroad company, which would otherwise be voted in the interests of E. H. Harriman.

The writ is directed against the Union Pacific Railroad company, the Railroad Securities company of New Jersey and the Mutual Life Insurance company of New York, which combined hold the above shares of stock.

Mr. Fish, accompanied by his attorneys, entered the courtroom of Judge Ball of the superior court at 2 o'clock but it was not until two hours after that time that they were able to secure the attention of the court and ask for the issuance of the injunction.

The petition was filed by ex-Senator George F. Edmunds of Vermont, John A. Kasson of Iowa, Stuyvesant Fish of New York and William H. Emrich of Chicago as stockholders of the Illinois Central Railroad company against that corporation, its directors and stockholders, the Union Pacific Railroad company, the Railroad Securities company, the Mutual Life Insurance company and a large number of individuals in whose names it is claimed the Union Pacific Railroad company has placed all of the stock which it holds in the Illinois Central and in whose names the Railroad Securities company has placed 15,000 shares of its stock of the Illinois Central. In addition to the temporary injunction sought, a final decree was asked declaring that the Union Pacific Railroad company and the Railroad Securities company have no power under the laws of Illinois to own stock in the Illinois Central. It was also asked that these companies be directed to sell their stock in the Illinois Central within a reasonable time.

### Charges an Unlawful Scheme.

The petition charges an unlawful scheme of the Union Pacific Railroad company to control the commerce of the United States by buying large blocks of stock in the principal transportation companies. It also sets forth the facts stated in a recent report of the interstate commerce commission in regard to the transactions of the Union Pacific Railroad company and E. H. Harriman. It sets forth the names of corporations whose stock, it is claimed, the Union Pacific has bought, among them the Chicago and Alton, the Illinois Central, the Chicago, Milwaukee and St. Paul and the Chicago and Northwestern. It charges that these four companies own and operate parallel and competing lines both in and outside of the state of Illinois and that it is unlawful for the Union Pacific company to own and vote stock in such parallel and competing lines.

It is also charged that the acquisition of the stock of the Illinois Central by the Union Pacific, which took place in July, 1906, was concealed from the public and the stockholders of the Illinois Central and was first brought to light by the investigations of the interstate commerce commission. It is alleged in this connection that up to this day not one share of the Illinois Central stock has been registered

in the name of the Union Pacific, but still stands in the names of the clerks and brokers of Kuhn, Loeb & Co.

It is further charged that in the effort to get as large a percentage of the stock of the Illinois Central as possible the Union Pacific violated its charter in buying the stock of the Railroad Securities company of New Jersey, which held as its only asset 95,000 shares of Illinois Central stock.

The charge is made that 15,000 shares of Illinois Central stock belonging to the Railroad Securities company was transferred a few days before the Illinois Central books closed by a sham transaction to E. H. Harriman and eighteen officials of the Union Pacific and Illinois Central who are under the control of Mr. Harriman.

### FOUR PERSONS KILLED.

Train Hits an Automobile at a Grade Crossing.

Pottstown, Pa., Oct. 15.—As the result of a grade crossing automobile accident on the Philadelphia and Reading railway at Keim street here Monday night four persons were killed and one probably fatally injured. The automobile, which was run down on the crossing by a Pottsville express, contained a party of five persons from Kimberton, Pa. The dead are:

Jacob Reese, aged fifty-five years; Mrs. Jacob Reese, forty-eight years; Mrs. Anthony W. Emery, Jr., forty-two years; Belya Emery, one year, child of Mrs. Emery.

Anthony W. Emery, Jr., owner and driver of the automobile, was the only one of the party to escape death and his thigh was broken and he received internal injuries in the accident.

The party were on their way home from a shopping tour in this city when the accident occurred. The crossing where the automobile was struck is reached after a sharp turn. A hedge and a clump of trees together with a couple of buildings partly obscured the crossing until within a short distance of its approach and it is probable Mr. Emery did not know a train was due, for he drove the machine directly on the track in front of the express.

The automobile was broken into bits and the members of the party were hurled out of the machine. Mr. Reese and Mrs. Emery were instantly killed. Mrs. Reese's neck was broken and she died on the train while being brought into the city. Belya Emery died from a fractured skull in a hospital a few hours after the accident.

### OVER A SCORE INJURED.

Trolley Car Crashes Into a Work Car at Mooreheadville, Pa.

Erie, Pa., Oct. 15.—Twenty-five persons were injured, the majority of them seriously, but none it is believed fatally Monday night in a trolley collision on the Buffalo and Lake Erie Traction company line at Mooreheadville switch near here.

All the passengers had miraculous escapes from death. The car was late leaving Northeast, below Mooreheadville, and is said to have been running at the rate of thirty miles an hour. A work car preceded the trolley and at Mooreheadville it was sidetracked. It is said the switch was not properly locked and the passenger car struck the switch, swerved for a moment and then crashed into the work car. Fortunately the brakes on the work car were not set and following the impact the work car was knocked several hundred feet along the tracks. All the passengers were thrown from their seats and showered with broken glass. Among the most seriously injured are:

Austin Hubbel, motorman; R. E. Gugg, conductor; H. T. Kishler, salesman, Rochester, N. Y.; J. Kendrick, Mooreheadville; Mrs. W. W. Butler, Harbor Creek.

Ten women passengers, all of Erie, Pa., were badly cut and bruised. Ten other persons received minor injuries.

### CRASH THROUGH A TRESTLE

Seventeen Cars Plunge Into a Ravine and One Man Is Killed.

Middletown, N. Y., Oct. 15.—One man was killed, five others will probably die and six or eight others were badly injured when seventeen cars of a work train crashed through a trestle on the Erie and Jersey railway at Stony Ford near here. The cars were loaded with dirt and stone and twenty Austrian laborers who were on the cars went down with them to the bottom of the ravine ninety feet below. The engineer felt the trestle giving and putting on full speed succeeded in getting across with his engine and one car. The coupling on the second car broke and all the rest of the train went into the ravine.

The body of John Briscovitch was recovered and the seriously injured were hurried to hospitals here. Officials of the company say the recent rains undermined the trestle.

### Building Destroyed by Fire.

Cincinnati, Oct. 15.—The five-story brick building occupied by W. H. Stanage & Co., stationers, at the northeast corner of Pearl and Walnut streets, was destroyed by fire late Wednesday night. Loss, \$75,000, partially covered by insurance.

## FINALLY IS DIVULGED

Information Long Sought by  
Prosecutor Kellogg.

### WATCHED ITS COMPETITORS

Standard Oil Company Kept Records of All Business Transacted by Independent Concerns—William G. Rockefeller to Testify.

New York, Oct. 15.—Hampton G. Wescott, vice president of the Standard Oil Company of Kentucky, testified Monday in the hearing of the federal suit against the oil combine, that in several of the Southern states the Standard had found it expedient to sell much of its products through companies which the public believed to be independent. The practice of selling through so-called independent companies which were owned by the combine was discontinued two years ago, according to Mr. Wescott.

Mr. Kellogg, counsel for the government, drew from the witness that the Standard Oil Company of Kentucky, which acts as selling agent of oil in Kentucky, Georgia, Mississippi, Louisiana, Tennessee and Alabama, had purchased numerous small independent selling companies and through many of them sold oil to the consumer. Some of the plants of these independents were dismantled and the business taken over by the Standard.

Mr. Wescott threw a side-light on a business department of the Standard concerning which the federal counsel has been seeking information since the beginning of the inquiry. Mr. Wescott testified that each month the main office of the Standard Oil Company of Kentucky at Covington sent to him not only the reports of the business operations of the Standard, but the statements concerning freight shipments and sale of oil by all competitors. These statements, according to Mr. Wescott, gave the names of the consignor, the consignee, the amount of oil shipped and any information that might be available. Mr. Wescott said that after examining these statements he filed them with the statistical department in the Standard's office in the city. The statistical department, Mr. Wescott said, was in charge of W. E. Benis, who kept compilations and records of the business of both the Standard and its competitors.

Mr. Kellogg stated Monday night that he expected to call William G. Rockefeller, assistant treasurer of the Standard Oil Company of New Jersey, to the stand when the hearing is resumed today.

It is believed that at the end of this week the hearings will be adjourned for several weeks to give Mr. Kellogg an opportunity to go carefully over the mass of information he has obtained since the hearings began.

### STUBBORN FIRE IN ST. PAUL

Fireman Strive for Several Hours to Subdue the Flames.

St. Paul, Oct. 15.—Fire starting Monday evening in the basement of the Five and Ten Cent store, 57 and 58 East Seventh street, resulted in a total loss of \$50,000 and gave the firemen one of the hardest battles they have had recently. The fire burned from 6:42 until midnight and every effort upon the part of the firemen to smother the flames were futile. The fire apparently was under control several times when it would burst forth with renewed energy.

The Five and Ten Cent Store company is the heaviest loser, its stock, valued at \$30,000, being totally destroyed by fire and water. The damage to the Woolworth building, in which the Five and Ten Cent store is located, is about \$5,000. The firm of W. A. Friend and the White House department store each sustained a \$5,000 loss from smoke and the water which flooded the basements. The basement of the Strong & Warner company at Seventh and Minnesota streets was flooded. That and other firms in the block suffered losses aggregating \$5,000.

The fire was what is known as a basement fire, the most difficult to fight, and situated as it was, midway between the front and rear of the basement, gave the firemen little chance to reach it. Smoke poured in heavy, suffocating clouds from the windows and doors. Fireman after fireman succumbed to the smothering clouds of smoke only to be replaced by another, and himself returning as soon as he revived. The fight was kept up without cessation from 7 until midnight, when the flames were cornered and the block was saved.

Several firemen were injured, none of them seriously.

### Assistant Secretary Retires.

Washington, Oct. 15.—Thomas Ryan, for nearly eleven years first assistant secretary of the interior, will retire from that office the latter part of this month. He will be succeeded by Frank Pierce of Salt Lake City, Utah.

### Maltese Laces

### Valenciennes Laces

¶ The time is here when you will wish to select your laces for your fine Christmas handkerchiefs and other fine needlework. ¶ You will wish laces that have the neatest of designs as well as splendid wearing qualities. ¶ We have never shown the variety of assortments that we do today and despite the fact that laces have advanced we will sell you these at prices that you will deem reasonable. ¶ We will show you qualities that will give service and which possess style.

H. F. MICHAEL Co.

### SEVERAL PERSONS INJURED

Elevated Trains in Collision at Chicago.

Chicago, Oct. 15.—Fifteen or more persons were injured, several of them seriously, when a Metropolitan elevated train crashed into the rear of a South Side elevated train at State and Van Buren streets. The end of the car was stove in and all the windows were shattered. Many of the passengers were cut by flying glass and others were injured in a frantic rush for the platform, following the accident. The accident is said to be due to the failure of the motorman on the Metropolitan train to apply his brakes in time.

### MUST GO TO PENITENTIARY

Former Mayor Schmitz Has Lost Right to Appeal to Higher Court.

San Francisco, Oct. 15.—According to the district attorney's office, Eugene Schmitz, former mayor of San Francisco, but now a convict, has lost the right to appeal to a higher court through a blunder of his attorney, Charles H. Fairall, and must go to the penitentiary forthwith. Moreover, the claim is made that after Fairall discovered his mistake he sought and procured a change in the record of the transcript of appeal to cover his own error. These recommendations in ink were in the printed volume and the prosecution refused to accept service in the matter.

### LOCAL NEWS NOTES

Meet me Thursday at the busy store  
L. M. Koop's. 113t2

Tony Bohlke was in the city from  
Hubert today.

A. M. Opsahl went to Pine River  
this afternoon.

Dr. Beise returned from Sauk Center  
this afternoon.

Use Zenith Coal in your cook stove.  
108t6 The FISHER-BUDD FUEL CO.

A. T. Larson went to the twin cities  
this morning on business.

Judson LaMoure was down from  
Smiley today between trains.

Clem Thompson, of St. Paul, returned  
today from a trip to Pine River.

Miss Carrie Morrison went to the  
twin cities this morning on business.

Mr. and Mrs. A. P. Blanchard, of  
Little Falls, were Brainerd visitors to-  
day.

Mrs. George Whitney went to St.  
Paul this morning to visit relatives and  
friends.

Suits! Suits!! Suits!!! Coats! Coats!!  
Coats!!! at the busy store of Koop's,  
Thursday, Oct. 16. 113t2

Mrs. Frank Rossini and daughter  
went to the twin cities today to visit  
friends.

Mrs. L. P. White returned yesterday  
from a week's visit with relatives in  
Minneapolis.

Call and see the new electric flatirons  
at D. M. Clark & Co.'s. 40tf

Swan Johnson left today noon to  
visit friends in Minneapolis and Wis-  
consin points.

The ladies of the Maccabees will give  
an October frolic at their hall Friday  
evening, October 18.

Leave your orders for storm sash  
with D. M. Clark & Co. 97tf

M. T. Dunn and M. E. Ryan were  
passengers for the twin cities on the  
early train this morning.

The finest of seasoned wood at the H.  
H. Hitch Co. Delivered promptly.  
Full measure. Telephone 256. 114t2

The ladies of the Presbyterian church  
will give a harvest supper and sale on  
Monday evening, October 21. All are  
invited.

Use Zenith Coal in your Round Oak  
heaters.

108t6 The FISHER-BUDD FUEL CO.

Misses Nellie and Mary Reilly and  
Miss Emma Soback, of Hokah, Minn.,  
returned home today after a visit with  
relatives here.

One woman's rule for managing a  
husband was "Feed the brute." The  
advice will use Hunt's Perfect Baking  
Powder and Extracts.

Zenith Coal is all coal. For sale only  
by 108t6 The FISHER-BUDD FUEL CO.

Supt. Strachan accompanied by Dr.  
Courtney and several gentlemen from  
out of town, went to International  
Falls last night for a brief outing.

The new Whitlock cylinder press is  
being put into THE DISPATCH building  
this afternoon and a man is expected  
from Minneapolis tomorrow to set it  
up.

Cole's Hot Blast gives more heat with  
coal than any other stove. D. M.  
Clark & Co., agents. 97tf

A. Q. Parker, who was operated upon  
at St. Joseph's hospital Saturday  
for varicose veins and hernia, is im-  
proving rapidly and a speedy recovery  
is expected.

Ralph Quinn, who was operated upon  
in a Minneapolis hospital Monday of  
last week for tumors, is improving  
rapidly and a speedy and complete re-  
covery is expected.

Zenith Lump Coal, looks nice, burns  
nice, and is nice—try it.

108t6 The FISHER-BUDD FUEL CO.

J. H. Murphy returned this morning  
from the twin cities, where he had  
been on business. He states that he  
saw "The College Widow" while there  
and that the play is certainly fine.

P. F. O'Brien arrived this morning  
from Couer de Alene, Idaho, where he  
is employed. He came after his fam-  
ily and will return with them in a few  
days to make that their future home.

D. M. Clark & Co., largest install-  
ment house in the city. Goods sold on  
easy terms. 233tf

The train from the west was two  
hours late this afternoon and the M. &  
I. passenger was held for the connec-  
tion on account of a large number of  
passengers ticketed through to north-  
ern points.

T. J. Feeley, of Farmington, Minn.,  
who has been at the court house for  
several days gathering statistics for the  
state tax commission, left this after-  
noon for Koochiching county to con-  
tinue the work.

Zenith Lump Coal makes the cook  
smile—try, and be convinced.

Thursday. Koop's! Koop's!! Koop's!!!  
Thursday! Thursday!! Thursday!!!  
Coats! Coats!! Coats!!! Suits! Suits!!!  
Suits!!! 113t2

G. R. Pfoutz, W. Coffrain, Walter  
Northrop, H. A. Rollins, O. G. Graham  
and A. P. Cardle went to Crow Wing  
this afternoon duck hunting. With  
such an aggregation the ducks like  
Davy Crockett's coon ought to give up  
the ghost.

As the cold weather sets in it re-  
minds us of the fact that Skauge's  
Never-Cough stops that dry hacking  
(by some people called barking). Cut  
it out by in time using this truly won-  
derful medicine—Druggist Skauge  
makes it, sells it and guarantees it.  
106-118

J. P. Early and family left today  
noon for Jamestown, N. D., where  
they will make their future home.  
They were accompanied by Mrs. Sarah  
Linnemann, who will make her home  
with them. Miss Marie Canan accom-  
panied them as far as Staples. 97tf

D. M. Clark & Co. are agents for  
the Stewart, Favorite and Monitor base  
burners. 97tf

Mr. and Mrs. Matt Kemp were in  
the city from Jenkins today. Mr.  
Kemp reports the sale of his summer  
resort on Whitefish lake to Oliver  
Thomas, of Dorsett, Minn. The latter  
gentleman expects to take possession  
within a month.

If you love your wife buy her Zenith  
Lump Coal.

108t6 The FISHER-BUDD FUEL CO.

Emil Thorburg and Ralph Murray,  
two boys living in West Brainerd were  
up in municipal court today charged  
with larceny from a building in East  
Brainerd. The case was continued un-  
til Saturday, the boys being releas-  
ed on their own promise to report for  
trial.

Mrs. Chimanskey, of Mandan, a  
cousin of M. T. and H. P. Dunn,  
was operated upon at the Northern  
Pacific hospital for appendicitis yester-  
day. She is getting along nicely. Mr.  
Chimanskey and J. R. McDonald and  
Mrs. F. L. a brother and sister-in-law  
of Mrs. Chimanskey are also in the  
city called here by her illness.

Did you see the big crowds at the  
coat and suit opening at Koop's Mon-  
day? We think every lady and child  
in town was there. They are going to  
have another opening Thursday, Oct.  
17. 113t2

### A FAMOUS ROAD.

India's Tree Bordered Highway 1,200  
Miles in Length.

The road I have in my mind is in  
India and stretches 1,200 miles from  
Lahore to Calcutta. It is the famous  
Grand Trunk road. Let me explain its  
nature, though one cannot do so by  
comparison, for there is no road of five  
miles in England that is anything like  
it. It is level. Indeed, there is not  
above a mile the whole distance where  
even a lady need dismount to walk.  
The material with which it is made is  
called kunker, and if you care to turn  
that word into concrete you have an  
idea of what it is like. It is exceed-  
ingly hard and as smooth as a prepared  
pavement. There is no dust. When I  
first got on this road and enjoyed the  
luxury of easy traveling I said, "This  
is magnificent, but in a little time I  
suppose it will become gritty and un-  
even." I went 50, 100 miles, 200 miles,  
500, 600, 700 miles, and it was always  
the same, with not even a small stone  
to give a jog. Nearly the whole of the  
way is lined with a double row of ma-  
jestic trees.

With two friends I rode across India  
during the hottest time of the year, in  
April and May, and was never serious-  
ly inconvenienced by the heat, for at a  
pace of fifteen miles an hour one could  
create a draft.—Chambers' Journal.

### Home Influences.

Each one of us is bound to make the  
little circle in which he lives better  
and happier; each one of us is bound  
to see that out of that small circle the  
widest good may flow; each of us may  
have fixed in his mind the thought  
that out of a single household may  
flow influences which shall stimulate  
the whole commonwealth and the  
whole civilized world.—Dean Stanley.

Flora Wiggins  
in "The College Widow"

## PISO'S CURE

A Painful Persistent Cough

portends serious results if allowed to continue unchecked. Constant  
hacking tears the lungs and exposes the delicate, inflamed  
tissues to ravaging consumption. The most obstinate and advanced  
cough is readily relieved by PISO'S CURE. No other remedy has  
such a soothing and healing effect upon the throat and lungs. For  
nearly half a century it has cured innumerable cases of coughs and  
colds and saved many lives. For throat and lung affections

Piso's Cure is the Ideal Remedy

FOR COUGHS AND COLDS

## Staff Writer in Minneapolis Journal Gives Glowing Account of the Cuyuna Range

### ORE TRAFFIC GUARANTEED THE N. P.

## Rogers, Brown & Co. Said to Have Guaranteed N. P. 250,000 Tons Annually

The Minneapolis Journal of Monday contains the most detailed writup of the Cuyuna range which has yet appeared in print. It is optimistic in the extreme and states that Rogers, Brown & Co. have guaranteed the Northern Pacific railroad 250,000 tons of ore traffic annually for an indefinite length of time. The Journal article also contains some mention of the new finds in Otter Tail county. That portion of the article referring to the Cuyuna range is as follows:

Deerwood, Minn., Oct. 14—After three or four years of exploration around Deerwood and in other parts of northern Crow Wing county, it becomes evident that some iron ore of merchantable grade is to be found. For four months the firm of Rogers, Brown & Co. has been exploring on a tract in section 29, township 47, range 28, on the south shore of Rabbit lake, and the result of drilling operation there has been remarkable. Hole No. 111, on lot 6, cut ore at eighty-three feet from surface; from there to 185 feet is an average, as shown by the assays from samples of drill cuttings, running about 63 per cent and some five-foot sections from 65.62 to 66.04 and all averaging about .110 phos. From 135 to 220 feet this hole will average a little better than 40 per cent iron. The hole stopped in ore of the lower grade; the assays for the last five feet were, iron, 38.85, silica, 36.94.

Hole No. 117, on the same tract, showed ore from 102 feet to 286, a depth of 184 feet, averaging better than 60 per cent iron and about .090 in phos. There was one assay in this hole below 50 per cent and that was 48.31 per cent iron. Hole No. 106 showed 210 feet of ore averaging 58 per cent iron and running in phos about as No. 117. No. 120 showed a leaner ore, but for the depth of seventy feet, not including a seam of lean taconite between 180 and 215, it showed an average of about 58 per cent, the silica being correspondingly higher and phos about the same as in other holes.

All these holes are vertical, and the general character of the formation is also vertical, so that it may be that seams of rich ore have been penetrated by the drillholes.

#### MINING IN 1908

So satisfied are Rogers, Brown & Co. with the result of their explorations, that they are willing to guarantee a railway freight of upwards of two hundred and fifty thousand tons a year from this property for an indefinite number of years and are now endeavor-

ing to make arrangements with either the Northern Pacific or Soo roads to build to the land, assuring the roads that they can begin mining in 1908.

The better ore found is, for the most part, hematite, of good structure and not excessively wet, but it is not suited for the bessemer process and can be used for the manufacture of steel only in the open hearth process. For foundry purposes it is doubtless well adapted.

Seven or eight steam drills are now working on the tract, and more than fifty holes have been put down by the various companies, beginning with the Orelands company of Duluth, which first took up the matter of the development of this district four years ago. Rogers, Brown & Co. have two options, one for a lease of 25 cents a ton royalty, with minimums of 25,000 tons the first year, 50,000 tons the second and 100,000 tons for subsequent years, the lease to be taken out in about twenty months from this time; or second, for the purchase of the land outright for \$250,000, any time within the same period.

The main line of the Northern Pacific road now passes within about two and a half miles southeast of the property, and the main line of the Soo road, running from west to Duluth, will cross in the vicinity. The Northern Pacific has made no rates for ore hauling, but has intimated that it would ask 80 cents a ton; as the distance is but 75 miles to Duluth, the general opinion is that a lower rate will be made, possibly about 60 cents. Neither the Northern Pacific nor Soo have ore shipping docks at the head of the lake.

#### REMARKABLE FIND OF DEEP ORE

In section 1 of the township immediately south, or about a mile and a half from Rabbit lake, is the most remarkable find of deep ore, though now probably worth little, that has ever been made in the Minnesota region, possibly in the United States. A. M. Chisholm and others have there drilled eight holes, one row north and south, of five, and another, 1,200 feet east, of three. These eight holes show ore as follows: No. 1, ore 83 to 153 feet; No. 2, ore 82 to 735 feet; No. 3, ore 90 to 120 feet; No. 4, ore 83 to 324 feet; No. 5, ore 93 to 898 feet; No. 6, ore 85 to 710 feet; No. 7, ore 110 to 350 feet; No. 8, ore 90 to 198 feet. All but Nos. 1 and 2 were bottomed in ore and No. 5, it will be noticed, shows 805 feet of ore.

All of this great body of ore is probably low grade, averaging, say, about 40 to 45 per cent, and high in phos-

phorus. No consumer has yet shown any interest in it. It is possible that further exploration may find some concentration of ore high enough to be merchantable, or it may be that a 40 per cent ore will be available in due time. This will depend largely on the character of the ore and the cost of getting it to market, and on the possibility of concentration by cheap washing, such as the Oliver Iron Mining company now employs at Canisteo. If washable, this ore body is at once available.

#### FIRST DISCOVERY IN 1904

The first discovery of ore in the district was made in the summer of 1904 by Cuyler Adams and associates along a line of magnetic attraction found by him in the vicinity of Deerwood. The country is nearly flat, heavily covered with glacial drift and has numerous glacial lakes. It was once wooded, but the timber has been taken off. There are practically no rock outcrops, and the conspicuous topographic ranges notable in Lake Superior iron districts are absent.

#### How to Avoid Appendicitis

Most victims of appendicitis are those who are habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels, and restores the natural action of the bowels. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. H. P. Dunn & Co. mwf

#### Another Opportunity

Coats! Coats!! Coats!!! Suits! Suits!! Suits!!! as we want everybody to be well satisfied in this line. We have engaged another coat and suit man from the far east to give an opening at our store Thursday, Oct. 16, at the busy store of L. M. Koop's.

#### A Correction

The reporter got his lines crossed in the taxation article Monday. The increase of 25 per cent was on office furniture instead of on household furniture and wearing apparel. Colts and cows were decreased 10 per cent instead of increased.

#### The New Pure Food and Drug Law

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug Law as it contains no opiates or other harmful drugs, and we do recommend it as a safe remedy for children and adults. For sale by H. P. Dunn & Co. mwf-dw

#### AN EXTINCT ANIMAL.

The Saber Toothed Tiger Was a Formidable Creature.

The most remarkable of all the extinct feline animals are those known to naturalists as the saber toothed cats or tigers, a group comprising the greater part of all the fossil forms. They date back to the earliest times of which we know anything about the family in North America and reach down to the time of man himself. A large and powerful species described from the Indian Territory by Cope lived contemporaneously with the hairy mammoth, as evidenced by the commingling of their skeletons. There can be little or no question but that the hairy mammoth was contemporaneous with man in North America as well as in Europe. Its geological range is from the close of the eocene to the latter part of the pleistocene.

The chief peculiarity of the animal is the extraordinary elongated canine teeth. The tail is of unusual length and the legs are short. The animal measures about seven feet in length aside from the tail. The lower jaws have a downward projection in front, due to a flange-like widening of the jawbones, which doubtless served as a protection to the teeth, preventing their injury or loss. In some of the larger forms from South America this flange was not present, while the canine teeth were even more elongated than is the case with this species, attaining a length of over six inches and protruding far below the jaws when closed.

#### BACK GIVES OUT

Plenty of Brainerd Readers Have This Experience

You tax the kidneys—overwork them—They can't keep up the continual strain. The back gives out—it aches and pains; Urinary troubles set in. Don't wait longer—take Doan's Kidney Pills. Brainerd people tell you how they act.

David Northrup, 918 Fron St., Brainerd, Minnesota, says: "Backache and kidney complaint were of short duration in my case after I began using Doan's Kidney Pills, procured at H. P. Dunn & Co.'s drug store. There has been a dull steady aching in my back and lameness across the loins. It only required one box of Doan's Kidney Pills to regulate the action of the kidneys to a normal condition, remove the backache and impart tone and strength to the parts affected. From the results I obtained I believe any sufferer from kidney complaint will find in Doan's Kidney Pills a most valuable remedy."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

See the extreme styles Monday at the busy store. L. M. Koop's. 11012

## TIEPLANT WAS STARTED MONDAY

### First Train Load of "Niggers" Pulled From Retort at 5:20 That Afternoon 1,600 TREATED IN EACH BATCH Creosoting Process Takes About Four Hours When Ties Are Well Seasoned

A representative of THE DISPATCH was present at the tie preserving plant when the first train load of treated ties was hauled from the retort at 5:20 Monday afternoon. The opening of the plant was attended with no formality, only one or two spectators being present to witness the starting.

The retorts in which the ties are treated, to which the rest of the plant is auxiliary, are immense cylinders of boiler steel, about eight feet in diameter and over 130 feet long. They rest horizontally on cement foundations, one end being closed while the other is fitted with an immense circular door held in place by a large number of two-inch bolts carrying heavy nuts, by which the door is hermetically sealed. The ties are loaded on cars each capable of carrying fifty ties. These cars are of steel and iron and are fitted with racks so shaped that the outlines of the load closely follow the shape of the retort. The capacity of each retort is sixteen cars, or 800 ties to the retort and two retorts are used, making 1,600 ties treated at one time.

The process consists in forcing a liquid creosote into the pores of the ties, which should be well seasoned, under a heavy pressure, after which the creosote is drawn off into tanks below the retorts and a vacuum created, which draws the surplus creosote from the ties. They are then hauled from the retort and the work repeated with another bath. The actual time or treatment is about four hours.

The cars, which are narrow gauge, are hauled, or pushed, as may be necessary by an electric motor having a draw bar power of fifty tons and capable of easily handling 16 cars with their load of 800 ties. The current is supplied by a volt dynamo geared direct to a 50 horse power engine, and making 300 revolutions per minute.

The ties when they enter the retort are clean looking and sweet smelling, but when they emerge, they are black as an old hat and the odor, laugh! The entire place smells as if all the women in Christendom had stored their furs there and liberally supplied them with moth balls.

In addition to, or rather auxiliary to, the retorts, are the big steam pumps which force the liquid into the ties under heavy pressure, and the immense air pumps for use in creating a vacuum. There is also an immense storage tank outside, and two smaller ones which stand on their ends over the center of the retorts. The creosote, after being drawn into the tanks below the retorts, is again pumped into the upper tanks to be used again.

While everything at the plant is working as well as could be expected, there are the vexations and troubles always found, to be overcome. It will be running smoothly in a few days, it is thought, however.

The tie preserving department of the Northern Pacific is under the supervision of Thomas Gibson, formerly division superintendent at Missoula, while the local plant is under the charge of Lowry Smith, formerly with the Columbia Creosoting Co., the owners of the patents covering the process, and builders of the plant. There is also an electrician and engineer and a time keeper employed at the plant, besides the large number of men required to unload, peel, handle and reload the ties.

The institution is one that will mean no small thing for the upbuilding of Brainerd and its starting is of much more significance than many think.

#### Notice

I hereby give my son, Fred Guyett, his time during his minority and will claim none of his wages and will pay no debts of his contraction after this date. MRS. L. J. GUYETT.

Brainerd, Minn., Oct. 11, 1907. 11113p

#### Roadside Wit.

He who matched wits with the author of "The Ancient Mariner" had indeed a lively task before him, for Cole-ridge was never caught napping. The poet was so awkward a horseman that his riding often attracted comment of anything but a complimentary nature. One day he was riding along the turnpike road in the county of Durham when a wag who met him fastened upon him as an excellent subject for sport. Consequently he drew rein and said in an impertinent drawl:

"My graceful friend, did you happen to meet a tailor on the road?"

"I'm inclined to think I did," said Cole-ridge meditatively. "I was not sure at the moment, but he said something about my meeting a goose farther along the road."

The wag put spurs to his horse, and the poet jogged calmly on his way.

## MUSIC AND DRAMA

### Coming Attractions

Oct. 16—The College Widow.  
Oct. 28—The Human Slave.

### At The "Unique"

At this theatre the program is good and evenly balanced. "The Fairy of Black Rock," and "Living Silhouettes" furnish a fine example of the perfection of films showing magic art. "Who Owns the Pear," a comic film kept the audience in a roar last night. The illustrated song, "Roll Around," sung by Miss Kathleen Graham, was also a decided hit. "Terrible Ted," setting forth the bloodthirsty adventures—in his dreams—of a young would-be bad man and portraying the sad awakening, when mother cuffed him into consciousness of the fact that he had been asleep.

### "The College Widow"

George Ade has written nothing better than his unique comedy of college life. "The College Widow," with its exciting football game and strong love theme, each so well illustrated through the strongly drawn characters, and side support in scenes, incidents, and personages, so cleverly devised and potently outlined, that there seems no exaggeration in the exquisitely humorous caricaturing of people and things.

Mr. Savage is sending us a notable cast, and it is very likely that we will welcome the new faces with the same cordiality as the older members of this organization. Miss Marguerite Snow is the widow; Mr. Robert Kelly, the half back; Miss Clara Weldon, the athletic girl, and Miss Estelle Dale, the fascinating chaperone. "The College Widow" comes to the opera house Wednesday night, Oct. 16.

### Wood For Sale

Good jack pine, birch and tamarack wood for sale below prices charged at wood yards. Wood delivered anywhere in the city. Leave orders with

FRED DREXLER,  
315 6th Street S.

### To Holders of City Orders

All city warrants bearing date prior to April 1st, 1907, are hereby called in for payment and all interest will cease from and after this date.

Brainerd, Minn., Oct. 9, 1907.  
JUDD WRIGHT,  
City Treasurer.

### PAY-AS-YOU-ENTER CAR.

The "Montreal Plan" to Be Tried on Chicago Transit Lines.

The Chicago City Railway company has decided to try the experiment of a pay-as-you-enter street car which President Mitten promised some months ago, says the Chicago Tribune. It is what is known as the "Montreal plan" and works well in that city. The only thing bothering Mr. Mitten is whether it will work equally well in Chicago. It is one of those things which the people have to be educated up to, and he is doubtful of his ability as a public educator.

The Montreal cars are equipped with a dividing rail on the rear platform so as to separate as far as possible the passengers getting on and off at the same time. Passengers getting on the front platform can only get into the car when the door is opened from the inside. It is locked to outsiders. The conductor stands on the rear platform and collects the fares as the passengers get aboard.

At the start only one car on each line will be equipped in this manner. It will be a case of "trying it on the dog." If it is found that the plan works, then it will be extended to the remaining cars. All the new cars which have been ordered can be converted to meet these conditions if wanted. The thing feared by the street car managers, however, is that Chicagoans are so firmly fixed in the habit of getting aboard a street car the way which comes handy that this sort will go wrong.

### An English Fish Story.

Brown had returned from a fishing expedition and after partaking of a most welcome dinner was relating some of his fishing experiences.

"Last year," said he, "while fishing for pike I dropped half a sovereign. I went to the same place this year, and after my line had been cast a few minutes I felt a terrific pull. Eventually I landed a fine pike, which had swallowed the hook, and on cutting it open to release the hook, to my amazement—"

"Ah," said his friends, "you found a half sovereign."

"Oh, no," replied Brown. "I found 9s. 6d. in silver and threepence in copper."

"Well, what became of the other threepence?" queried his friends.

"I suppose the pike paid that to go through the lock," answered Brown.—London Tatler.

### \$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh, being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, O.  
Sold by Druggists, 7c  
Take Hall's Family Pills for constipation.

### Very Nicely Done.

Gallant Man (aside)—At last I have her all to myself. Now I can tell her how I love her and ask her to be mine. How shall I do it, I wonder?

Gentle Maid (behind her fan)—It is surely coming. I am so nervous and frightened. I know he is going to be terribly dramatic. I do hope I shan't have to help him up off his knees. Goodness, why doesn't he say something? I must break this horrible silence. (Aloud, recklessly) Have you ever been abroad?

Gallant Man (smilingly)—No. I'm saving it for a wedding tour.

Gentle Maid (demurely)—Why, how funny; so am I.

Gallant Man (meaningly)—Then why shouldn't we take it together?

Gentle Maid (innocently)—Possibly your wife and my husband might object to going in such a crowd.

Gallant Man (brilliantly)—The crowd wouldn't be objectionably large if your husband and my wife were husband and wife.

(Further conversation was disjointed and indistinct).—Pearson's Weekly.

### "Copy Reading" Howells.

The London Athenaeum says of the following Howells paragraph that it is the best sentence perhaps in any recent English book. Describing a certain ancient edifice, Mr. Howells writes and the Athenaeum quotes:

"What, in the heart of all this blossoming, was the great cathedral itself when we came in sight of it but a vast efflorescence of the age of faith, mystically beautiful in form and gray as some pale exhalation from the mold of the ever cloistered, the deeply reforested past."

Very fine, all must admit. But wouldn't that paragraph have been meat and drink to the man who used to mark up Mr. Howells' newspaper copy back at Bucyrus, O. If Howells the reporter had written that for the Bucyrus Blade he would have found it in the paper next day about like this:

"The cathedral, with flowers all around it, looks fine. It is 400 years old and needs paint."—Galveston News.

## NEGROES AND FOREIGNERS

Congregationalists Would Elevate Their Religious State.

Cleveland, Oct. 15.—The raising to a higher state in the Christian world not only the negro race but the hordes of foreigners who become American citizens each year, formed the principal topic of discussion before the American Missionary association at the sessions of the triennial council of the Congregational church here. A notable address was delivered by Justice David J. Brewer on the importance of the American missionary work to the nation.

## SHAKE WELL IN A BOTTLE

### People Taking Less Patent Medicine Since Learning to Treat Themselves

### IS EASILY MIXED AT HOME

### Tells Readers How to Find Out if the Kidneys are Affected and What to do

A well-known authority states that there are more cases of kidney trouble here now than ever before, while recent reports show that the more people succumb each year to some form of kidney disease than any other cause.

When there is sickness, examine the urine. Rheumatism is only a symptom of kidney trouble. It is nothing more or less than excessive uric acid in the blood, which is sluggish, inactive kidneys have failed to sift out, leaving to decompose and settle about the joints and muscles, causing intense suffering; frequently resulting in deformity; often reaching the heart when death ensues.

Pain across the back, frequent, painful and suppressed urination and other symptoms of weak bladder are not the only signs of kidney trouble; many cases of stomach disease, headache, pain in the heart, inactive liver, etc., are but symptoms; the cause of which can be traced to feeble, clogged kidneys.

The physicians for the insurance companies always carefully examine and report on the condition of the urine. It is a certain sign of sickness or health of the human body.

A test of the urine should be made by every man and woman at least once each year. A simple test is to void a small quantity of urine in a bottle or glass and let it stand over night; next morning, if there is a reddish brick-dust sediment, or white, fleecy substance present, either consult some reputable physician or take a good vegetable treatment. The following prescription is recommended highly in these cases, and if desirable the sufferer can mix it at home. Any good prescription pharmacy has the ingredients, which are harmless and inexpensive: Compound Kargon, one ounce; Fluid Extract Dandelion, one-half ounce; Compound Syrup Sarsapilla, three ounces. Shake well and use in teaspoonful doses after each meal and at bedtime. When any of the symptoms enumerated above are present, good results are sure to follow immediately the use of the simple prescription.

## Secret!

AYER'S HAIR VIGOR, NEW IMPROVED FORMULA  
Sulphur. Destroys germs that cause dandruff and falling hair. Cures rashes and eruptions of scalp.  
Glycerin. Softening, healing. Food to the hair-bulbs.  
Quinin. A strong tonic, antiseptic, stimulant.  
Sodium Chloride. Cleansing, quieting irritation of scalp.  
Cantharides. Increases activity of glands.  
Sage. Stimulant, tonic.  
Alcohol. Water. Perfume.

### ABLE TO RAISE THE MONEY

Swedes Confident of Their Ability to Construct Big Challenger.

Stockholm, Oct. 15.—William Olsson and Goesta Kyhlberg, who are at the head of the movement here to build a challenger for the America's cup, say that a large portion of the money required to construct and sail a 90-footer estimated at about \$189,000 has already been subscribed. Many large manufacturers have offered to furnish material gratis and the captain and the three mates of the yacht will sail her without any pay, the designer will accept no compensation for his work and the builders will only charge the net cost of construction. Messrs. Olsson and Kyhlberg think they will now be able to guarantee funds even for a 95-footer if required.

The report that the Swedish club intends challenging with either a 70 or a 95-footer in order to compel the New York Yacht club to build a new defender has no foundation. The Swedish yachtsmen are prepared to challenge with a 90-footer and all reports to the contrary are sharply denounced in the Swedish papers.

A meeting of the Royal Swedish Yacht club has been called for Oct. 21, when an important announcement is expected.

### SIMPKINS IN SPOKANE.

Declares He Has Not Been Trying to Avoid Arrest.

Portland, Ore., Oct. 15.—A special from Spokane says Jack Simpkins was recognized on the streets of that city last week and interviewed and said he did not make any move to avoid arrest, that he had been in Denver, Seattle, British Columbia and other places, that he had brushed up against policemen and detectives, but that he is not courting arrest because perhaps several years would elapse before he would be brought to trial.

"What is there in Orchard's confession?" he was asked.

"I don't know. I will say this: I was in Boise at the time and saw Orchard there. He was trying, so he claimed, to buy a small ranch."

"Why did he implicate you in his confession?"

"He's crazy, but he evidently had sense enough to implicate me so as to give credence to his story, as he must have realized that the fact that I was known to be there at that time would add strength to his story."

### Narrow Escape From Asphyxiation.

San Francisco, Oct. 15.—J. D. Spreckles, Jr., son of John D. Spreckles, had a narrow escape from asphyxiation at his home here. He was taking a bath and was overcome by escaping gas from the heater in the bathroom. His prolonged stay in the bathroom alarmed the members of his family who broke open the door and found him unconscious. Mr. Spreckles speedily recovered and will suffer no ill effects from his mishap.

### DEFEATED BY THE LAITY.

Provinces Bill Killed by General Episcopal Convention.

Richmond, Va., Oct. 15.—The principal event in the general Episcopal convention Monday was the defeat of the so-called archbishop or provinces bill. The house of bishops passed the measure and the clergy were overwhelmingly in favor of it. The laity, however, defeated the measure by a nonconcurrence. The vote was not taken until 10:30 o'clock at night, after some sixty or seventy speeches had been made for and against the proposed plan.

At a joint meeting of the bishops and deputies held in St. Paul's church the bishop of Mississippi and the bishop of Georgia spoke on the negro question, both contending that the work among the negroes in the Southern states had advanced rapidly within the past ten years, and both making earnest pleas that the church would continue the work. The bishop of South Dakota and the assistant bishop of the same state spoke on the work among the Indians in the United States, but the most interesting of all the speeches was made by the Right Rev. Samuel Ferguson, bishop of Cape Palmas, the only negro sitting in either house of the convention. Bishop Ferguson made an excellent impression and his remarks were warmly received and especially by the delegates from the Southern states.

The Rev. Dr. Wilkins of Los Angeles had passed a resolution forming a combination of ten bishops, fifteen clergymen and twenty laymen to raise a fund of \$5,000,000 for the relief of disabled clergy.

### CHANGE FOR THE BETTER.

Marked Improvement in Condition of Emperor Francis Joseph.

Vienna, Oct. 15.—Monday brought a distinct change for the better in the condition of Francis Joseph, the aged emperor-king of Austria-Hungary, whose illness of the past fortnight has aroused the interest of the civilized world and the apprehension of his subjects. The doctors consider that the immediate danger has passed, unless unforeseen complications arise, and as a result hopeful anticipation has come to the Viennese in place of the fears and forebodings of the past three days.

The patient had a fairly good night Sunday and felt better when he arose Monday morning. He rested easily and although he still suffered considerably from cough, the day on the whole was a good one. The fever has almost entirely disappeared and the spread of the inflammation has ceased. In fact it is said that his majesty was so much better that he was devoting some time to state affairs, and he granted audiences to a number of court officials.

It is semi-officially asserted that the recovery of the patient really began from Monday and even the court physician, who up to the present time has been pessimistic, now is more hopeful.

### Thought Nine Enough.

The following amusing birth notice appeared in the Dresden Anzeiger: "To our seven hearty boys there came today, in God's early morning, not the wished for little daughter, but, in compensation, a pair of fine boys. We judge by this elementary event that these strenuous times demand more men than blossoms of the gentler sex, and console ourselves with thoughts of our fatherland, to which we call: 'Hurrah! Hurrah! Now there are nine. Firm stand and true the watch on the Rhine!'"

"To all dear friends and acquaintances and to whom else the joyous tidings may be of interest we give this notice—the last of its kind—Eduard Rost and wife."

### MARKET QUOTATIONS.

**Minneapolis Wheat.**

### Reduce Your Fat

Rengo Rapidly Reduces Excess Fat

Without the Aid of Tiresome

Exercises or Starvation Diet

COSTS NOTHING TO TRY.

Rengo will reduce excess fat and build up the strength and health of anyone who eats it regularly for a short time. It is a product of nature, delicious to the taste and safe and harmless in use.

This illustration plainly shows what Rengo has done.

Rengo requires no exhausting exercises or starvation dieting to help it out as so many of the so-called fat remedies do. You can go right ahead and attend to your regular daily duties. It compels proper assimilation of the food and sends the food nutrient into the muscles, bones and nerves and builds them up instead of piling them up in the form of excess fat.

There is nothing "just as good" as Rengo. For sale by all druggists at \$1.00 per full-sized box, or by mail prepaid, by the Rengo Co., 3151 Rengo Bldg., Detroit, Mich. The company will gladly send you a trial package free by mail. If you write them direct to Detroit; no free packages at drug stores.

For sale and recommended in Brainerd by H. P. Dunn & Co., Druggists.

## SAN FRANCISCO RIOT

Mob Attacks Japanese Laundry and Wrecks It.

### STARTED BY DRUNKEN MAN

Intoxicated Logger Who Broke a Window Was Captured by Japs—Efforts of His Friends to Release Him Caused a Riot—Many Were Hurt.

San Francisco, Oct. 15.—As a result of an attack on a Japanese laundry Monday night the proprietor and one of his employees are in the emergency hospital, many whites are nursing bruises caused by the clubs of the police and the exterior of the laundry is a wreck.

The trouble was occasioned by Joseph King, an intoxicated logger, who crashed into the window of the laundry conducted by T. Umekubo at 422 Fell street. The proprietor and an employee named Omura rushed out and dragged King into a rear room, where he was placed in charge of a young Japanese, who stood guard armed with a section of gaspipe, while the other Japanese hurried to summon the police to arrest King.

Three intoxicated companions of King witnessed the incident and they planned to rescue their friend. Other whites were called in and there followed a combined attack on the laundry. The street soon was filled by a large crowd and a dozen Japanese on the inside sought to repel the invaders. Policeman Thomas Collier soon was on the scene and attacked the crowd single-handed. Another officer soon arrived in an automobile and the riot call that was sounded brought strong reinforcements. The police charged the crowd with clubs and many were hit.

Umekubo and Omura were conveyed to the hospital, where it was found the former was badly cut about the head, while Omura sustained a fracture of the shoulder.

King was found asleep in the rear room, innocent of the trouble he had caused.

Attorney Walker of the Japanese Society of America is securing evidence of the affair.

### KILLS WIFE AND HIMSELF

Oregon Man Commits Murder and Suicide.

Helena, Mont., Oct. 15.—Roy Reed of Portland shot and killed his wife, Sylvia Reed, in the office of the Hotel Havre and before any one could interfere turned the gun on himself and blew his brains out. Reed came from Portland, Ore.

From what can be learned Ray and Sylvia Reed had been married ten years. Their domestic relations became strained over a year ago and divorce proceedings were instituted by Mrs. Reed. When Reed got off the train here he inquired of the bartender at a saloon near the depot the location of the Hotel Havre. Later he had a conversation with his wife in her room and threatened to kill her. She told him to go ahead and shoot. Later Reed, apparently fearing arrest, deposited his revolver at a saloon, but shortly after got it and went to the hotel. There he found Mrs. Reed on duty at the clerk's desk and deliberately shot her three times. One shot entered the heart. Reed then turned the gun on himself and blew off the top of his head.

### TWO DIE BY SHOOTING.

Accidents Result in Deaths Near Tyler, Minn.

Tyler, Minn., Oct. 15.—Two deaths by accidental shooting have occurred in this neighborhood. Jack Neul of Pipestone, who had been hunting near Lake Benton in company with two other young men, was leaning on his gun, when both barrels were accidentally discharged. The shot entered his body at the shoulder and severed the axillary artery. Death was instantaneous.

Peter Peterson of Limestone, a sixteen-year-old boy, was carrying a shotgun when his ten-year-old brother, who carried a 22-caliber rifle, suggested that they exchange weapons. Shortly afterward, at a range of about a rod, the shotgun was accidentally discharged and the shot entered Peter's arm and side, causing fatal injuries.

### FOR MURDER OF ANN HALL

Five Men Sent to Prison for From One Year to Fifteen Years.

Lynchburg, Va., Oct. 15.—The trial of five men for the murder of Ann Hall in Patrick county last March, which has been in progress in the federal court for five weeks, came to an end when Peachy Rakes pleaded guilty and was given six years in prison. George Booth and George Martin pleaded guilty to the charge of conspiracy to murder and were given a year each. Grover Beamer was given six years and Will Rakes fifteen years.

### Minnesota Bank Robbed.

Ortonville, Minn., Oct. 15.—The State bank of Correll, which is sixteen miles east of Ortonville on the Milwaukee road, was broken into by burglars at 3 o'clock Monday morning, the marauders taking away \$1,000 in gold, silver and paper currency. The building was completely wrecked by the explosives used by the robbers, who escaped.

### The Nearest Approach.

An English tourist visited Arran and being a keen disciple of Isaac Walton was arranging to have a day's good sport. Being told that the eleg, or horsefly, would suit his purpose admirably for a lure, he addressed himself to Christy, the highland servant girl, "I say, my girl, can you get me some horseflies?"

Christy looked stupid, and he repeated his question. Finding that she did not yet comprehend him, he exclaimed: "Why, girl, did you never see a horsefly?"

"Naa, sir," said the girl, "but a wanse saw a coo jump over a presh-pice."

### Grandfather's Portrait.

A villager, intensely conceited and ignorant, but quite wealthy, was persuaded to have his grandfather's picture repainted.

The artist, not having been decently treated by the villager, drew the portrait almost in a nude form. Rolling it up, he told the man not to look at it before the coming New Year. On that day the villager ordered the picture to be hung up that he might pay it his New Year respects. As it was being unrolled he frantically waved his hands and shouted: "Wait! Wait! The old gentleman is not ready, for he is not yet dressed."—From the Chinese.

### The Worth of His Money.

Not seldom in highland districts the attendance at church during unpropitious weather is but scanty. One minister, finding himself on a bolsterous Sunday confronted with but one solitary auditor, who happened to be a gruff, outspoken character, took him into his confidence, with a view to propitiate him. "Will I go on with the sermon, John?" John answered gruffly, "Of course." Getting into the pulpit and leaning over it, he asked, "Will I give you the Gaelic sermon or the English one?" "Gie's baith. Ye're weel paid for 't," said John, more gruffly still.—Dundee Advertiser.

### MITCHELL UNDER THE KNIFE

Miners' Leader Operated on for Appendicitis.

La Salle, Ill., Oct. 15.—John Mitchell, president of the United Mine Workers of America, was operated on Monday for appendicitis. He was under the influence of an anaesthetic for thirty-five minutes. The operation appears to be successful. The patient rallied after the removal of the vermiform appendix and is resting easily, although his condition is still serious.

### English Spies Captured.

Berlin, Oct. 15.—A correspondent of the Tageblatt at Emden telegraphs that according to a dispatch received from Borkum, a spying yacht with English naval officers on board has been captured by two Wilhelmshaven torpedo boats. The officers are suspected of having taken soundings and made photographs in forbidden waters.

### TELEGRAPHIC BRIEVITIES.

The California State League has been declared to be an outlaw organization by the national baseball commission.

A son has been born to J. Austin Chamberlain, eldest son of Joseph Chamberlain, former British colonial secretary.

Ralph Parker, a wealthy farmer, committed suicide at Sterling, Ill., by taking one pound of Paris green. He was despondent over ill-health.

Captain John L. Wells, formerly American consul to Madagascar and associate editor of the Yonkers Standard, is dead at his home in Yonkers, N. Y.

Three hundred delegates representing twenty-two states Monday began the fifteenth annual convention of the National Spiritualists convention in Washington.

### A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate woman or child. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz., pure refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable tonic and a purgative, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heartburn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels. Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal Passages, it is well, while taking the "Golden Medical Discovery," for the necessary constitutional treatment, to cleanse the mucous membranes two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial throat and lung affections, excoriation of the advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

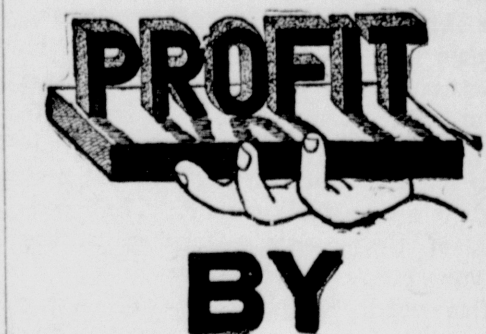

## BRAINERD OPERA HOUSE

OCTOBER 16th

# THE COLLEGE WIDOW

Henry Savage's Master Production of Geo. Ade's "Typical Young American" Drama.

Let us have your order for bottled beer or case goods. We cater to the family trade special.

### John Coates Liquor Co.

### Record Price for Wheat.

Minneapolis, Oct. 15.—There was a bloodless but no less stillborn fight in the Minneapolis wheat pit Monday, with the honors going for the most part to the bulls, but with the bears coming out in the end with a fairly good showing. Wheat touched the high mark for the season when December sold at \$1.15½ and May \$1.18. Toward the close the bears got in some strong work and December broke to \$1.12.

### A Bargain.

Mr. Mason rubbed the edges of the umbrella with discriminating fingers while his wife listened to the saleswoman's enumeration of its good points.

"This is \$10, isn't it?" he asked.

"Oh, no," replied the saleswoman reproachfully. "It is \$9.89."

"She seems to regard the 11 cents as particularly invidious. I wonder why?" whispered Mr. Mason to his wife.

"Not at all," said Mrs. Mason, with mild heat; "nothing 'invidious' about it. Only very naturally it touched the girl not to have you perceive that you were getting a bargain."—Youth's Companion.

### Cautious.

A five-year-old girl was very ill, and, noticing the anxiety of her parent, she said, "Mamma, do you think I'm going to die?"

"No, my dear," replied the mother, "we think you will soon be better."

"Well," said the little one, "I'd like to die and go to heaven on a visit if I was sure I could come back if I didn't like the place."—Chicago News.
